# White-clawed crayfish conservation: solutions to extinction

Join us to learn about effects the North American Signal crayfish and disease are having on fisheries management and current conservation efforts to safeguard the future of our native crayfish.

## Featuring talks on:

- ◆ Danger - signals! South West Crayfish Project: Maddy Rees
- ◆ Biosecurity measures for fisheries management. Institute of Fisheries Management: Scott West
- ◆ Including a behind-the-scenes tour of the crayfish breeding facilities at

**Tuesday 23<sup>rd</sup> February 2010**
